

Money Worries Programme

If you're worried about money, it can affect your mental health. And if you feel down or anxious, you may find it harder to manage your money.

SilverCloud[®] by Amwell[®] is a digital therapy course. It can help you to break this cycle of money and mental health problems by learning new ways of thinking. The *Money Worries* programme will help you to tackle your financial difficulties and feel more positive about the future.

Knowledge and Understanding

You'll learn about the link between your finances and your mental health. In particular, you'll start to see how your worries can lead to unhelpful ways of coping, such as ignoring bills or not seeking help. Using the tools provided by the programme you can start to reduce the shame many people feel when they are facing financial difficulties.

Skills and Strategies

You will learn to become more confident and in control when it comes to managing your money. As you move through the programme, you will begin to overcome your fears in small, manageable steps.

Forging Ahead

At the end of the programme you'll know how to manage your money to reduce the risk of problems in the future. And you'll know how to take steps to ease the impact of financial stress on your mental health.

Is this programme for me?

This programme can help you if you want to understand and manage the relationship between your money worries and your wellbeing. If you spend a lot of time thinking and worrying about money problems, it will help you to start looking for solutions to your financial situation and feel more positive.

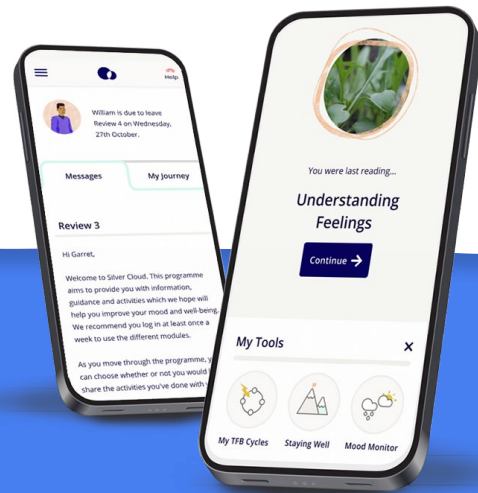

You can access the programme on your phone, computer or tablet wherever and whenever you need it. You can work through at your own pace. For most people it takes about eight weeks.

“I realised with time that worrying didn't solve my money worries, it just made me even more anxious.”

- Nadia, SilverCloud® user

Cognitive behaviour therapy

This programme is based on cognitive behaviour therapy, or CBT for short. CBT has been used for many years as an effective way to improve wellbeing. It allows you to become more aware of how you are feeling and teaches you how to make the changes you need to feel better.
